### Helping the Red Cross

Col. G. S. Ryerson, president of the Canadian Red Cross Society, writes as the opening chapter of his latest official announcement:

"It may be truly said that never in the history of the world has there been, and there continue to be for many months, such slaughter as is now being perpetrated on the battlefields of Europe. Estimating the combatants at 2,000,000, which is under the mark, and not counting the Russian and Austrian forces at all, it can be said no such colossal armies have ever been seen. Without going into details, it may be safely said that the average of killed and wounded will be 7 per cent of the armies engaged, of whom 2 per cent will be killed outright. Therefore, based on these statistics, there will probably be 140,000 men killed and wounded, but it is probable that this estimate will be far exceeded. Then comes the matter of sickness. Allowing 20 per cent as an average number of sick, it would mean that in the next few months there will be 400,000 sick in the armies of Europe. This is a modest estimate."

In the face of such statements as the above, is there a woman in Canada who will not give some of her spare time to helping the Red Cross?

In many schools the sewing hour is being devoted to making supplies for the soldiers, from the higher grades, who knit socks and wristlets, to the tiny tots who delight in making cheesecloth handkerchiefs.

### Presentation

To H. H. Tate

On the eve of his departure from Blairmore, a large number of citizens waited upon Mr. H. H. Tate at the council chamber and presented him with a gold watch and the following address:

"Blairmore, October 27th, 1914.

H. H. Tate, Esq.,  
Blairmore.

Dear Mr. Tate,—  
We learn only very lately that you intended leaving Blairmore tonight to take up duties elsewhere, and the time at our disposal did not permit us to give a more proper expression to our regret at your departure. We cannot however allow you to leave us without signifying in some way our deep appreciation of your many excellent qualities as a bank official and as a citizen.

You have been a representative here of one of our largest financial institutions for nearly three years, and now that you are being removed to another centre the best evidence of your success in Blairmore, socially as well as in the way of business, it is cordial regret expressed on every side that you are leaving us. We have found you unassuming, even retiring, in your bearing towards all without exception, but yet possessed of a strength of character and business acumen which we doubt not will carry you, onward to a speedy and complete success.

We regret exceedingly that you are severing your connection with our Town, but our regret is in a measure modified by the fact that a well deserved promotion is coupled with the change. Your many friends in Blairmore will follow you to the neighboring Province of Saskatchewan, and wherever else you may be engaged, with a friendly interest and we trust that this watch and chain will serve sometimes to recall the many pleasant associations that you have known in Blairmore. We ask you to believe that its monetary value is not by any means the measure of our esteem. It is the necessarily hurried expression of a desire on the part of our citizens to remind you that your character and worth have been appreciated by them in some measure at least.

On behalf of the citizens of Blairmore.

H. E. Lyon,  
Mayor.

W. A. Beebe,  
Councillor.

D. A. Sinclair,  
Councillor.

L. Dutil,  
Councillor.

F. E. Hinds,  
Councillor.

Michael Kose,  
Councillor."

The above address was read by Mayor Lyon, who also presented Mr. Tate with a handsome gold watch and chain, contained in a plush case.

Mr. Tate made a very suitable reply, expressing regret at being obliged to leave Blairmore and the Pass.

### Alberta in Good Shape

That Alberta is in the best shape financially of any province in Canada, Hon. Mr. Mitchell claimed in his budget speech in the Legislature. It has on hand the very substantial balance of \$1,325,590 to meet obligations; this includes \$475,000 to carry on the elevator policy. There is also in the bank \$1,650,000 to retire treasury bills due November 1st and with this wiped out Alberta's entire debt will be in the form of debentures. The debt December last was \$18,429,002 and by the end of 1914 will be \$21,333,566. Of this, nineteen and a half millions is represented in public works, buildings, etc. After dealing with 1915 revenue and expenditures, Mr. Mitchell pointed out the uncertainties due to war conditions, and said if revenues did not measure up to expectations, the government would reduce expenditure correspondingly and he warned the members that their full expectations as to public works may not be met. Mr. Mitchell also dealt with the indirect liability involved in railway guarantees. There are 2435 miles guaranteed, totaling \$40,600,700. Of this 1200 miles are completed and 387 graded ready for steel will be completed this year.

### Card of Thanks

The undersigned desire to express their sincere thanks to the ladies who so kindly sent along eatables and otherwise assisted to make the Red Cross dance a success. After paying all bills, we have been able to hand over to Mrs. Tod, the treasurer of the local branch of the Red Cross Society, the handsome sum of \$40. (Sgd.)

### The Quitter

When you're lost in the wild, and you're scared as a child,  
And Death looks you bang in the eye,  
And you're more like a bull, it's according to Hoyle.  
To cock your revolver—and die.  
But the code of a man says: "Fight all you can,"  
And self-discipline is barred.  
In hunger and wear, oh, it's easy to blow—  
It's the hell-served-for-breakfast that's hard.  
"Your sick of the game!" Well now, that's a shame.  
You're young and you're brave and you're bright,  
"You've had a raw deal!" I know, but don't squeal,  
Buck up, do your damndest and fight.  
It's the plugging away that will win you the day.  
So don't be a piker, old pard!  
Just draw on your grit; it's so easy to quit;  
It's the keeping-your-chin-up that's hard.  
It's easy to cry that you're beaten—and die;  
No matter if to buy it,  
But to fight and to fight when hope's out of sight—  
Why that's the best game of them all!  
And though you come out of each grueling bout,  
All broken and beaten and scared,  
Just have one more try—it's dead easy to die.  
It's the keeping-on-living that's hard.

I bought a nice new auto  
A few short months ago,  
I put my watch in pawn.  
Just to owe an auto was  
The height of my desire,  
To free myself from street cars  
And taxicabs for hire.  
But now I've had an auto  
Since May—nineteeen—and—three,  
When I auto own the auto

Wild Land Tax  
Details Are Out

Details of the new wild land tax, through which the government next year estimates a revenue of over a half million dollars, were divulged recently. It enforces a tax of ten mills, or one per cent., annually on the assessed value of land, and a special assessment to the actual cash value of land will be prepared upon which to base the tax. A careful perusal of the classes of land exempt shows that the new tax is far from being confined to wild lands. Practically every person who does not live upon, or within a radius of nine miles of his land, will pay the tax. The owner of a section of land valued at \$20 per acre, or a total of \$12,000, if he does not wish to cultivate the land and live within nine miles of it, will be liable for a tax of ten mills per annum, or \$120.00.

Grazing lands, except those under lease from the federal government, are subject to restrictions more severe than those imposed by Dominion laws. Instead of one horse or one cow to thirty acres, as the Dominion law requires, one horse or one cow must be kept to every ten acres if the tax is to be escaped. Taxes are collectible by the minister of municipalities or his agent by distress if not paid within thirty days of demand. The following clauses of the act explain its provisions and the exemptions allowed:

"For the purpose of adding to or supplementing the revenues of the crown, a tax at the rate of ten mills on the dollar of the assessed value, to be called a wild lands tax, shall be annually assessed, levied and collected on all land within the province, subject to taxation under the act. Provided, however, that in the event of the tax payable on any lot or fraction of a section of land under this section for the purposes of this act being less than \$1.00, the tax to be entered on the roll as payable for such purposes would be \$1.00."

The lands exempt from taxation under the provisions of this act shall be:

1 Any land held in trust for the crown.  
2 Land specially exempted by law or held for the public use of the province of Alberta.  
3 All lands held by or in trust for the use of any tribe of Indians.  
4 The land to the extent of three acres held by or for the use of any church

and occupied by a building used for church purposes.

5 The land in use as a public cemetery not exceeding twenty-five acres.

6 Land, for which homesteaded entry has been made under the provisions of the Dominion Land act or of any act substituted therefor and for which patent has not been issued.

7 All land held under grazing lease from the government of Canada, actually used for grazing purposes, and in accordance with the terms and provisions of the grazing regulations as from time to time in force.

8 Land vested in any library board established under the provisions of the public libraries act, being chapter 17 of the statutes of Alberta, 1907, or any act passed in amendment or substitution thereof.

9 Land used by agricultural societies organized under the agricultural societies ordinance, or any act passed in amendment or substitution thereof.

10 Land attached to and used in connection with any hospital which receives aid from the province under the provisions of the hospital ordinance, or any act passed in amendment or substitution thereof.

11 All land belonging to any city, town, village or rural municipality and used for the purpose thereof.

12 Land not exceeding four acres and attached to or otherwise bona fide used in connection with or for the purpose of every university, every school established under the authority of the school ordinance, and every incorporated hospital, so long as the said land is actually used and occupied by such institution, but not if otherwise occupied.

13 Land held by the province under reservation for public purposes.

14 A fractional section of land less than one acre in extent or any lot divisible upon a registered plan being less than one acre in extent.

15 Land included within boundaries of an incorporated city, town or village.

16 All enclosed land which has been used for the purpose of pasturing horses, cattle or sheep which are the property of the owner of the land and upon which horses or cattle to the number of at least three for every ten acres so enclosed have been pasturing for at least six months during the previous year, provided that the minister of municipal affairs may by written order modify the requirements of this sub-section for any given year or years, and for any section or sections of the province.

17 Land owned by a bona fide farmer who is actually residing on some portion of same, provided that the exemption under this clause shall not exceed 640 acres in the aggregate, such exemption, however, may cover parcels of land which are not contiguous but which are situated within a radius of nine miles from the home of the owner.

18 The land of any owner where each section or portion thereof has had one-fourth of its area under cultivation or crop during the previous year, provided that where the owner has several portions of land within a radius of nine miles and in the same assessment district, the area under cultivation or crop may be on any portion.

To enforce the act, the government will have power to divide the province into assessment districts and to appoint assessors who shall assess the land "at its actual cash value as it would be appraised in payment of a just debt from a solvent debtor, exclusive of the value of any buildings erected thereon or any other increase in the value caused by any other expenditure of labor or capital thereon."

Taxes shall be deemed to be due on the first day of January, 1915, in the year in which they are imposed, and if not paid by December 31, 5 per cent. will be added. This interest will be repaid semi-annually, therefore. The minister has authority, however, to collect any taxes by distress after thirty days notice that they are due.

No specific time is set for the coming into force of the act, it will become active as soon as assented to by the lieutenant-governor.

## How to Win Battles

More Victories are  
won by siege tactics  
than by assaults.

Apply this to business and see  
what it means: it means that  
continuous and steady adver-  
tising is more resultful than  
campaigns that come and go  
with long intervals between.

For an advertiser with goods  
to sell to suspend his selling  
effort now is to make matters  
worse for himself, and is no  
sign of that courage which is  
supposed to possess every Can-  
adian heart in these war times.

Win and hold your posi-  
tion in business by  
steadfastness of  
attack.

### CHRONIC DYSPERDIA

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia: "I have been a chronic dyspeptic for years, and of all the medicine I have taken, Chamberlain's Tablets have done me more good than anything else," says W. G. Mattison, No. 7 Sherman St., Hornellsville, N. Y. For sale by all dealers.

### Bellevue Happenings

James Callan is enjoying a short holiday in Spokane.

Colin Macleod, of Macleod, and Mr. Ostlund, of Lethbridge, spent Sunday in town.

Alfred Robert Holmes, of Coleman, made a business visit to town on Tuesday.

Tom Dupont left for Lethbridge Monday. He will work in his brother's mine there.

Fred Chappell and James Macleod spent Wednesday afternoon shooting at South Fork.

Tom Lloyd, of the Bellevue Liquor Store, made a business visit to Macleod on Tuesday.

It is expected that the electricity will be turned on in the Connolly addition by the weekend. Several of the buildings have already been wired and meters installed.

Yarto Lewis, one of our popular Welshmen, left for Castor, Alberta, on Sunday morning. Yarto was "one of the boys," and his departure left a blank not easily filled.

C. W. Johnston, of the Lyric theatre, left on Wednesday for a short visit to his ranch, some fifteen miles west of Granum. Here, he is hoping he brings back a big bag of chickens.

Miss Maggie Burrows, who has been visiting her parents for a few days, returned to Pincher Creek the first of the week. Her departure is greatly regretted by at least one party in town.

Things seem to be slowly returning to normal around the mine. All this week men have been taken back to work, and it is expected that work will continue steadily with a normal crew all winter.

Jack Leonard, who has been confined to bed for some time with rheumatism, went to the Sanatorium on Tuesday. We look for his speedy recovery under the able attention of nurse-lost Dr. Fleming.

An exceptionally large crowd enjoyed the weekly dance at the Lyric theatre on Friday night last. These dances are just being appreciated and fill a want to many who enjoy tripping the light fantastic.

J. B. Rudd has been busily engaged for the past few days laying a sidewalk in front of the Southern hotel. It is to be hoped that the other property owners will follow his good example and complete the job by laying a walk right along the street. It would be a God-send in muddy weather.

Rather an interesting sidelight is thrown on the war and its effect on the English people in a letter just received from England by Mr. Dufficy, our local barber. His sister, writing from a little town in the midlands of 5000 people, says that 500 have already volunteered for active service. That's going some—10%—and then it's a carpet-manufacturing town and possibly two-thirds of the population are women.

### A Huge Success

The benefit concert given by the F.O.E. in aid of F. Luthersland drew a capacity house at the Lyric theatre, Bellevue, on Tuesday, and a varied and interesting program was presented by local talent. Each and every item was deserving of the highest praise. Perhaps a short resume of the various items would not be out of place. The sensational side of the question was well taken care of by Mrs. Wolstenholme, who sang with great feeling and received splendid applause. That very old, but still very acceptable ballad "Ashore" was sung by Eva Hughes in his usual magnificent voice. What might be termed the head-liner was the singing of the Bellevue Male Voice Party, composed of sixteen. Their rendition of "The Crusaders" brought down the house, and the Sallors' chorus was well received. We expect and hope to hear more from these boys. The comedy side was exceptionally strong. William Stone, of London and Bellevue, in "I parted my hair in the middle," being a scream from start to finish. Bob Dicken and Dave Hutton both got a couple of good

### Cowley Happenings

Miss McDougall, from Fernie, is the guest of Miss McMillan.

Mrs. A. Freeman is home from the hospital, but is still very poorly.

Mr. and Mrs. Ward, of Mountain Mill, registered at the Cowley house Sunday night.

Mrs. D. A. Smith, of Lethbridge, returned home on Monday, after spending several days the guest of Mrs. W. C. Robinson.

A meeting for the purpose of re-organizing the Sunday school will be held Tuesday evening at the manse. Everybody welcome.

A party from Cowley and Lundbreck left on a hunting trip to The Gap. Hugh Pettit and Walter Knight are among the hunters. We wish them a successful trip.

The prodigals have returned. Two of our enterprising young men, who left Cowley some time ago for not the west, but fairer fields, have come to the conclusion that home isn't so bad after all, and far away fields are not as green as they look, when viewed at close range.

J. Carney and Milton Robinson each lost a valuable horse near the west crossing on Saturday night, both being killed by the train. This is a very heavy loss, and it is a pity something could not be done to prevent a recurrence.

A small attendance was present at the induction service in the Presbyterian church on Wednesday evening of last week, although a very pleasant evening was spent, five ministers being present to place Mr. Chalmers in his future position as pastor. Rev. Mr. Wright, of Pincher Creek, gave a very impressive address to the members, also to others who were present at the meeting, encouraging and inspiring them to do their duty as church workers, also trying to impress upon them the need of being in readiness with their minister's salary when due, as this was one of the important items to keep their preacher alive to his work, for, he said, it stands true that if he is to work for them he must have something to keep him up to the standard, something that will help and encourage him and stimulate him to his purpose. Lunch was served at the close by the ladies.

It is with regret we have to announce that on Saturday, the 24th inst., death entered the Cleland home and took them from the husband and father. Mr. Cleland had been ill for some time, and although death was looked for, it struck a terrible blow when it took the head of the home. He had been a resident here for but three years, and had gained many friends. He leaves a wife and large family of children to mourn his loss, many of whom were with him when the end came. They have the sympathy of the entire neighborhood. Funeral took place from the house to the Anglican church on Monday afternoon, thence to his last resting place, followed by a large concourse of people. The Orangemen, of which deceased was a member, turned out in a body. The pall bearers were Messrs. Scott and Dowling, of Summerview; Young, Easterbrook, Iredale and Robinson, of Cowley. Several wreaths of flowers were placed on the casket.

See our big clubbing offer on another page of this issue. The Western Home Monthly is known to be the best and most popular magazine in Western Canada. This opportunity of practically getting it free for one year should not be overlooked. The War Special itself is worth \$2.00, while every issue will contain up-to-date and reliable war information and illustrations.

ones over, and received a well merited hand. Three reels of moving pictures rounded out the programme, which financially and otherwise may be well termed "a huge success."

A teachers' alliance, as a measure of co-operation and protection, has been formed among the teachers of Calgary.

Among the avowed aims of the alliance are to promote interest in education and protect the teachers, to interview or invite candidates for the trusteeship to declare their position on educational matters, to be a medium through which information may be given to the public on educational matters, to afford advice on professional matters to individual members of the alliance, and to give advice and assistance to them in any legal matter of a professional nature, to discipline any of its members found guilty of any unprofessional conduct, to extend protection to any of the members who may be wrongfully treated in any matter relating to their professional work and to exact from them the proper fulfillment of their professional engagements.

Colonel Sam Hughes says "We are prepared to furnish 300,000 men. Fully 200,000 Americans are coming to Canada in hope of joining the Canadian forces, and how will they be prevented from doing so, if it is their desire to join."

Those who attended the opera house on Tuesday night received a rare treat and their money's worth. Richard & Fringle's combination has always been a favorite, but never more so than on this occasion, for the audience was kept busy right from start to finish with volumes of songs, music and comedy.

Thos. A. Edison, the great electrical genius and inventor, writing on the habit of cigarette smoking, says: "The injurious agent in cigarettes comes principally from the burning paper wrapper. The substance thereby formed is called acrolein. It has a violent action on the nerve centers, producing degeneration of the cells of the brain, which is quite rapid among boys. Unlike most narcotics, this degeneration is permanent and uncontrollable. I employ no person who smokes cigarettes."

Rev. Dr. Spencer concluded his series of special evangelistic services at Central Baptist church on Sunday last when large and representative congregations listened to inspiring and interesting addresses. In the afternoon the members of Victory Lodge I.O.G.T., attended service in a body. On this occasion Dr. Spencer's remarks were partly along the lines of temperance, but the main part of his address was of a patriotic nature, dealing with the war and its probable issues and the duties of Canadians to those dependent upon our warriors at the front.

There are no more chickens around Burnis and Lundbreck, because Messrs. Sparks and Dutil visited that locality with a complete outfit of hewers on Wednesday of this week.

A Calgary Austrian, named Mik-Tira, was given ten lashes at Macleod last week for beating his wife. Another Austrian received a similar prescription from the Calgary authorities the same day, and the important ceremony will be administered in the near future.

Ten dollar bills on the Prince Edward Island bank, which ceased to exist in 1887, are in circulation in this province, one specimen having been seen by the secretary of the Edmonton board of trade last week. Although the bills are not counterfeit, they are of no use by reason of the non-existence of the bank and thus a warning is issued that none are placed before you as "coin of the realm."

A rather serious runaway occurred near Bellevue on Monday afternoon, in which Frank Koebsch, the teamster, was thrown and sustained some minor injuries while a nine-year-old boy named Pozzi narrowly escaped death. The little fellow sustained two severe cuts on the head, one perpendicularly down the back of the skull, while the other penetrated beneath the jaw. Both cuts were deep, and a great portion of blood flowed from them. He was taken to the hospital by Mike Rossi, who happened to come along in his car immediately after the accident had happened. We are pleased to learn that the little fellow is improving, although yet very weak from loss of blood.

## AVOID NEGATIVE COUGH MEDICINES

If you want to contribute directly to the cure of capillary bronchitis and pneumonia, use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. This clears out the clogged bronchi or breeding places for the germs of pneumonia and other zoon diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedatives. For sale by all dealers.

A grand masquerade ball will be given in the Workers' Hall by the management of the Lyric theatre on the night of Monday, November 9th. The prizes, which have been donated by our local merchants are as follows: Best dressed lady—A \$5.00 hand bag, donated by E. C. McDonald, from whom masks may be purchased; best dressed gent, a \$5.00 pair of shoes, donated by T. M. Burnett, general merchant; best lady character, a \$5.25 electroplated, gold-lined sash in case, donated by Steve Humble, hardware and fancy goods merchant; and best gentleman character, a \$5.00 Inverclyde wool vest, donated by J. H. Naylor, men's furnisher. A good time is guaranteed, the floor being in excellent condition, and the best music will be provided. J. H. Rudd will serve a buffet supper at from 12 to 1:30 o'clock. ## It's You

If you want to live in the kind of a town  
Like the kind of a town you like,  
You needn't slip your clothes in a grip,  
And start on a long, long hike.  
You'll only find what you left behind.  
For there's nothing that's really new;  
It's a knock at yourself when you knock  
your town.  
It isn't your town—it's you.  
Real towns are not made by men afraid,  
Let somebody else get ahead;  
When everyone works and nobody  
shirks,  
You can make a town from the dead.  
And while you make your personal  
stake,  
Your neighbor can make one, too.  
Your town will be what you want to see.  
It isn't your town—it's you.
